**WOOLLEN DRYER BALLS**

Ecoegg Woolen Dryer Balls are made from 100% pure natural wool. They are hypoallergenic and safe for all laundry.

They bounce around in the tumble dryer creating space between your clothing. This allows the hot air from your dryer to circulate more efficiently through your load, cutting down the drying time, saving you money. They also act as a natural softener, ideal for anyone with sensitive skin or allergies.

**Directions for use:**  
 Simply place your Ecoegg Woolen Dryer Balls directly into the drum of your tumble dryer with your laundry.

For the best results we recommend using 3 Woolen Dryer Balls for small to medium loads.  
 4-5 Woolen Dryer Balls for larger loads.

- ✓ 100% pure natural wool
- ✓ Softens clothes naturally
- ✓ No need for chemical fabric softeners
- ✓ Speed up drying time
- ✓ Reduces static and wrinkles
- ✓ Lasts up to 1000 uses

**Caring for your Woolen Dryer Balls**  
 Over time some pilling may occur. You can remove these piles if preferred however, they will actually aid the drying process as they will increase the surface area of the woolen dryer ball.

To refresh your woolen dryer ball and ensure it continues to reduce static, simply place it inside a sock and pop it in your washing machine as part of a normal wash cycle.
